

RETURN, RECOVER & REDEFINE

ARE YOU READY?

BBG and Geraghty Taylor have considered the key interactions and steps that Landlords and Occupiers may need to consider when returning to the workplace following the Covid-19 Lockdown. We would be delighted to assist your organisation in preparing itself for the return to your workspace and in exploring how the lessons of lockdown can provide a springboard into enhanced space utilisation for the future.

1. RETURN

Immediate adjustments to buildings, services and existing spaces in line with social distancing requirements, in order for staff to feel protected and confident on returning to work.

2. RECOVER

Review lease options, investigate medium term adjustments to the existing office environment. Consolidate brand and culture through testing new ways of using office space alongside flexible work from home and collaboration options.

3. REDEFINE

Optimise space based on the new and tested modes of working or consider a new optimally sized, located and designed office. Benefit from the rewards of a new working environment.
